WORKS PROGRESS

ESTRUCTURA

95%

The structural work is 95% complete, and continues at a good pace. Completion is estimated for the first week in June, thus leading to the symbolic traditional act of raising the flag. This act symbolises completion of structural work in the construction industry.

SANEAMIENTO

40%

Installation of the downpipes in the buildings is 40 complete. This is the first installation to be fitted in buildings.

During work on the structure, the locations of the downpipes in the building are identified and they are then fitted for water evacuation. In our case, the downpipes and relevant ventilation have been fitted to the height allowed by progress of the structural work.

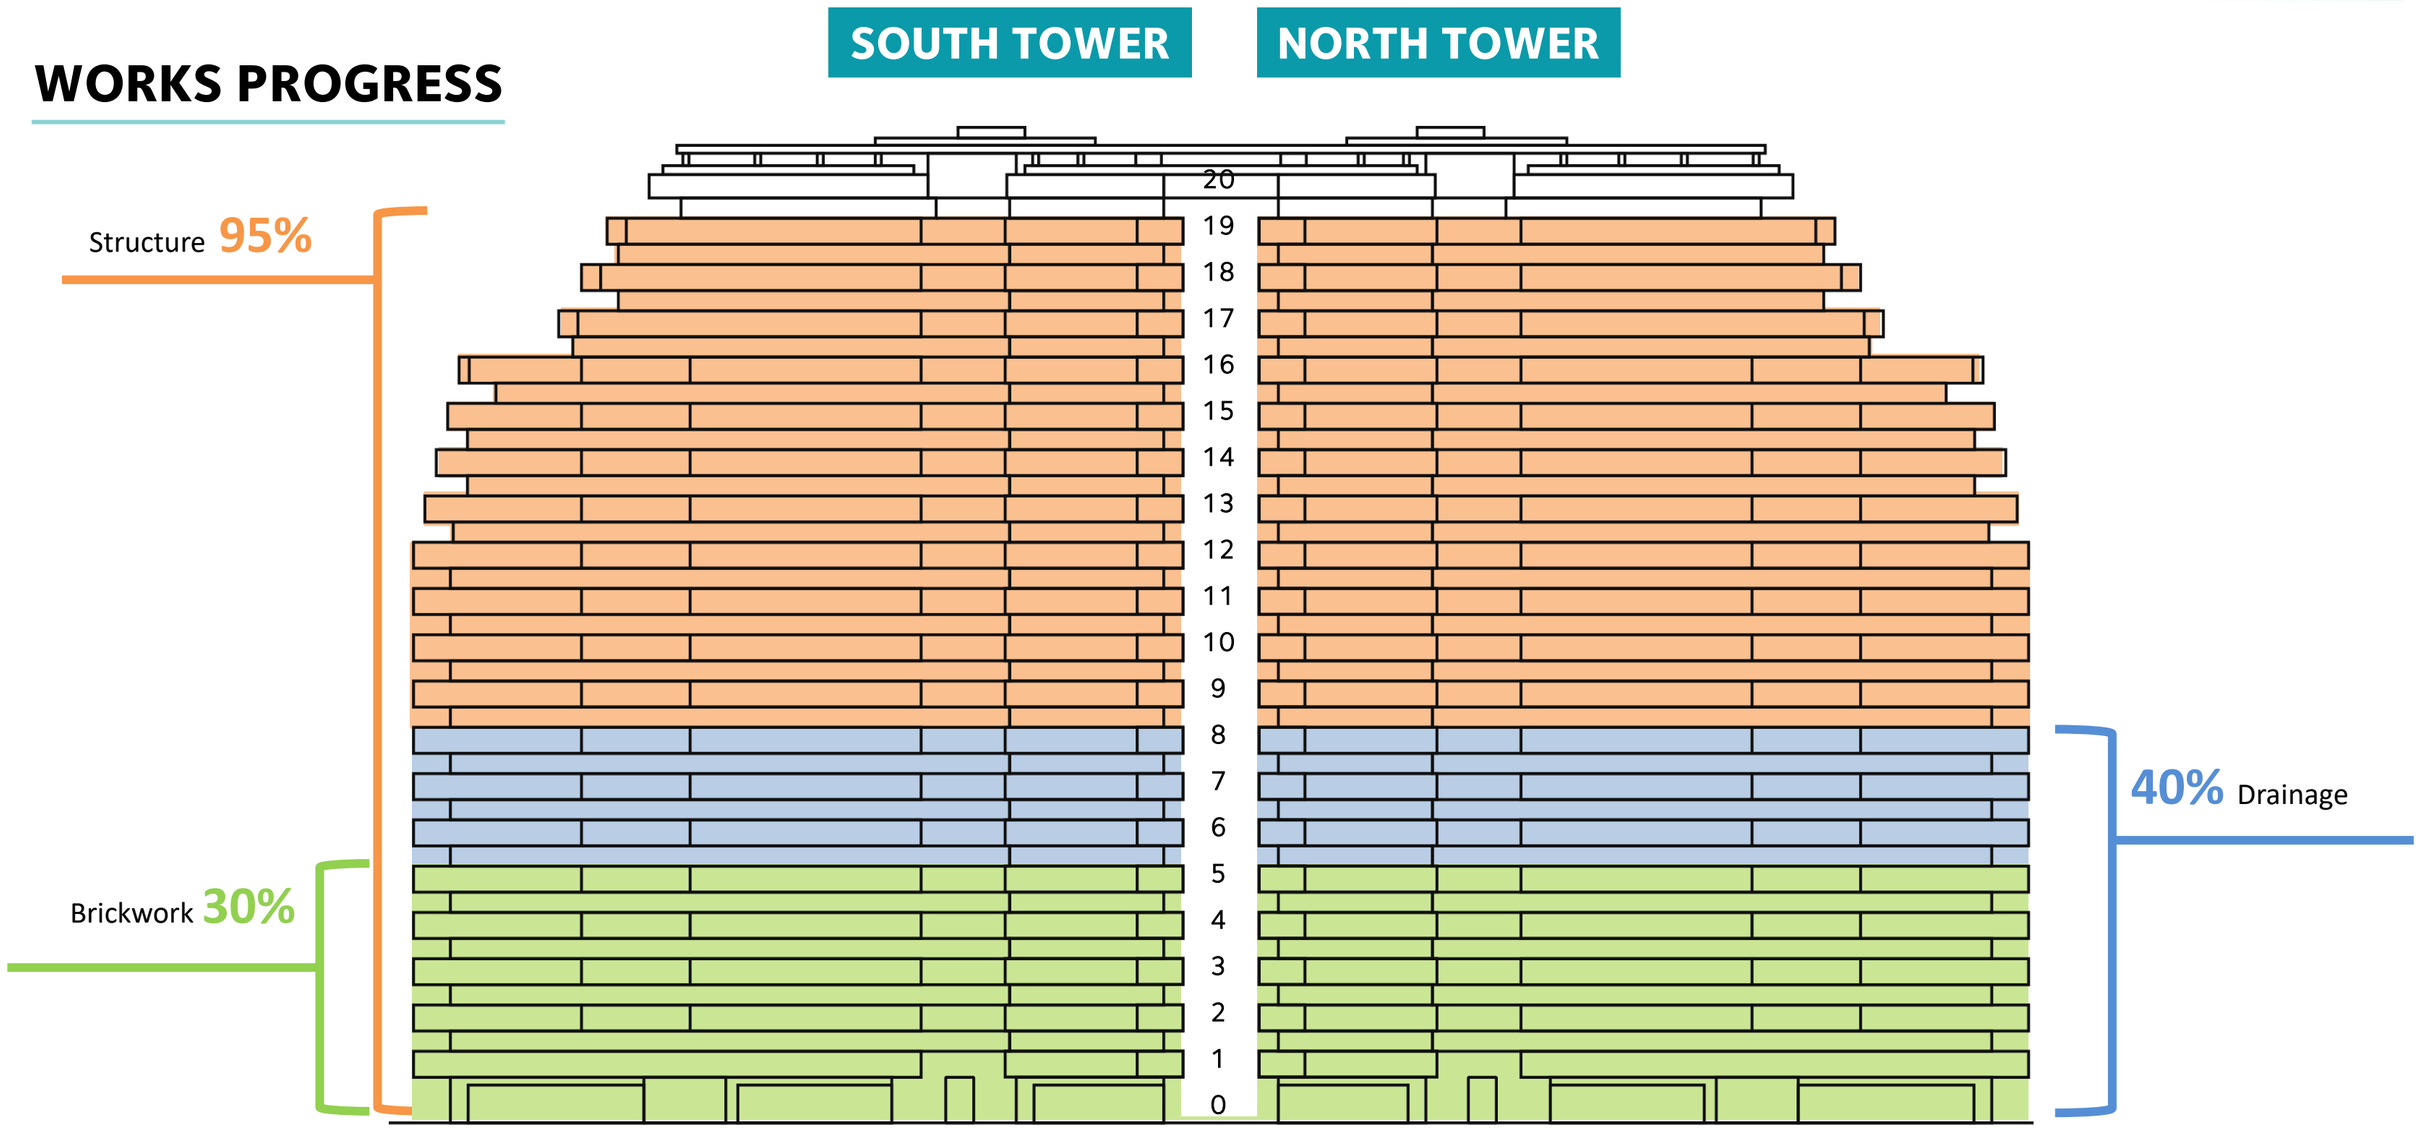

ALBAÑILERIA

30%

The brickwork on the façade and division of communal areas is 20% complete, and is being implemented simultaneously in both tower blocks.

The next job will be the building of the inner partition walls and interior installations in the homes. This work is scheduled to begin this May.

WORKS PROGRESS

NEW BLUE FLAG AT CANET DE BERENGUER BEACH

Canet de Berenguer beach is once again awarded the Blue Flag. This is an international standard that recognises the quality of the water, and also awards the efforts by the public authorities and citizens to meet the standards established in regard to legality, accessibility, sanitation, environmental education, cleanliness and safety.

Moreover, Canet de Berenguer beach is UNE-EN ISO 9001 Quality, UNE-En ISO 14001 Environment, UNE 170001 Accessibility, Q for Tourist Quality certified, meaning that Canet's beach is among the best in Spain.

SIGNING OF CONTRACTS CONTINUES

Contracts are being signed at an excellent pace. Work is progressing on schedule, and we would like to share our excitement and that of many clients who are gradually seeing the time approach when they will be able to enjoy their new life at Gran Canet.
